Title- Rosie Raja – Churchill's Spy

Author-Sufiya Ahmed

Background/ The setting-

This story is set in WW2, specifically 1941 and it varies between America and India. It is a fiction story but has a few hints of non-fiction, eg, the Nazis looking for people, citizens being murdered etc.

Summary- (The plot, characters etc)-

Rosina Raja, an Indian princess nicknamed Rosie overhears her father and some guests talking about the Nazis invading France. Right then, she realises that her father works as a secret spy for the prime minister – Winston Churchill. She sneaks onto the private plane they are going in and slowly starts to understand why he always goes away from home and how many missions he has. Being a spy was harder than she thought and coping up with everything – even dodging weapons and getting better reflexes. The main concern for herself is, will she even survive?...

Audience recommendation – I would recommend this book to ages 9-13 as they would probably enjoy reading it.
